### COUNTER DISPLAYS

TPR 60

TPR 80

#### Specifications

Reference	TPR 60	TPR 80
Dimensions	1450 x 400 x 260 mm	1800 x 400 x 260 mm
Weight	33 Kg	40 Kg
Power	0.16 KW	0.165 KW
Voltage	230 V	230 V

#### Description

Refrigerated counter displays meant for the presentation and the storage of cold starters, meat, fishes, vegetable etc. at the right homogeneous temperature  $+1^{\circ}\text{C}/+5^{\circ}\text{C}$  on GN containers. Specific homogeneous spread of the cold on the whole surface of the container. Regulation of temperature thanks to electronic thermostat. Draining device.

Capacity: 6 to 8 GN 1/3 containers. Interior neon lighting. Ecological injected insulation. Stainless steel construction and finishing in anodized aluminium.

Easy cleaning: removable rear sliding doors in plexi, liftable curved front glass.

Features: on/off switch, lighting switch, compressor, condenser and evaporator, electronic thermostat, 1 or 2 neons, gas R 134 CFC free. Delivered with 6 or 8 GN containers with a height of 40 mm

Made in France
